Letter No. _____

Dear Dr. Chapman:

25X1A9a

In your letter of September 7, 1960, you expressed a desire to know if [REDACTED] was interested in the idea of utilizing a specialist in the geography of the Himalayas in his organization. I have since had an opportunity to discuss this matter with him at some length.

25X1A9a

[REDACTED] is always interested in identifying trained geographers with significant background and experience in foreign countries and does endeavor to keep informed as to the existence of potentially qualified employees in order to fill vacancies which may occur on his staff. A specialist working only on the Himalayas is a somewhat narrower utilization of personnel than his organizational staffing permits. Your education and experience have other features which could be attractive at some time in the future. At this time, there are no present or anticipated vacancies in his Office to which your qualifications could be properly applied. I am assured, however, that in the event any such openings do occur, you will be given careful consideration and if a positive proposal can be made to you along these lines you will be informed.
